### Here's the perfect response to: I'd Like to Do Something, But Not Sure What!

A lot of folks are willing to do something but aren't sure what or have limited time and resources. Here's something we all can do: save prescription bottles for the distribution of medication throughout the world. There are several organizations that provide medications globally, especially in 3<sup>rd</sup> world countries. You can help: wash empty prescription bottles of all sizes, remove labels, and place the containers in a receptacle in Maxwell Hall. To do so is service to humanity.

### It could hardly be simpler!

There's a yellow garden wagon in Maxwell Hall where members may place staple food items: canned soups, vegetables, meats; bagged flour, meal, coffee and other staple foods. Your gifts are then transfer to the Samaritan Center in Tatum from where they are distributed to local individuals and families who need assistance.
